Dear Mr. Olyphant:

Re: Approval of Request to Modify  
NPDES General Permit No. ING040231  
IDNR Permit No. S-0360  
Peabody Midwest Mining LLC-  
Wild Boar Mine  
2180 Tecumseh Road  
Lynnville, IN Warrick County

Our office has received your NPDES Notice of Intent submittal dated October 3, 2016, for modification of general permit coverage. You have requested the following change:

The addition of new alkaline Outfall 131 (latitude 38°, 10', 02", longitude -87°, 16', 33"), discharging to an unnamed tributary to Big Creek.

This new outfall will be located on the west side of existing Basin 031, which already discharges through existing Outfall 031. The new outfall is necessary to prevent drainage from the north from short circuiting the basin as you are preparing to remove the existing outfall.

We have reviewed your request and determined that the activities associated with it are all within the same geographic boundaries of the referenced IDNR permitted areas. The DNR-permitted mining area has been covered by and associated with this same NPDES general permit approval since at least 2009. Prior IDEM general permit coverage approvals under this general permit have involved discharges into this same watershed, some of which have recently had the outfalls eliminated as the mining activities have progressed. These new outfalls are not the result of any new or expanded permitted mining operations. Furthermore this new outfall will be added to an existing basin that already has a discharge outfall. There will not be an increased discharge from this basin due to it having a second outfall.

Our office has further determined that the addition of the new alkaline outfall will not affect Peabody Midwest Mining's Wild Boar Mine's eligibility for coverage under the general permit rules outlined in 327 IAC 15-1 through 15-4 and 327 IAC 15-7, Facilities Engaged in Mining of Coal, Coal Processing, and Reclamation Activities, nor will the additional outfall point affect the site's ability to meet the reporting requirements. Therefore your petition to amend your permit coverage as is described above has been approved in accordance with Indiana rules promulgated under 327 IAC 15-7 and 327 IAC 2-1.3. Coverage for the facility will now include all outfalls listed on the first table of Attachment 1 to this correspondence.

The NPDES general permit coverage number assigned to this facility in the previous approval will continue to apply. Reporting is to be done using the federal Discharge Monitoring Report (DMR) form and the state Monthly Monitoring Report (MMR) form. The MMR form can be found on the internet at <http://www.in.gov/idem/cleanwater/2396.htm>. Both the state and

Mr. Jeffrey Olyphant

federal forms need to be completed and submitted on a routine basis. Please note that IDEM will no longer accept paper DMR or MMR forms after December 28, 2016. After that date all NPDES permit holders are required to submit their monitoring data to IDEM using NetDMR. Please contact Helen Demmings at (317) 232-8815 if you would like more information on NetDMR. Information is also available on our website at <http://IN.gov/idem/cleanwater/2422.htm>.

This modification shall be deemed effective on **November 1, 2016**, unless a person aggrieved or adversely affected by the acceptance appeals this decision. Coverage under 327 IAC 15-7 for all remaining outfalls remains effective, and will expire on **August 31, 2018**. In order to receive authorization to discharge beyond the date of expiration, the permittee shall submit such information and forms as required by the Indiana Department of Environmental Management no later than ninety (90) days prior to the date of expiration.

Please note that IDEM shall serve notice of its decision to approve the modification of general permit coverage for your facility under the general permit in accordance with the requirements of 327 IAC 5-3-14. It should also be noted that any appeal must be filed under procedures outlined in IC 13-15-6, IC 4-21.5-3-7, and the enclosed Public Notice. The appeal must be initiated by filing a petition for administrative review with the Office of Environmental Adjudication (OEA) within fifteen (15) days of the emailing of an electronic copy of this letter or within eighteen (18) days of the mailing of this letter by filing at the following address:

Office of Environmental Adjudication  
Indiana Government Center North  
100 North Senate Avenue, Room 501  
Indianapolis, IN 46204

Please send a copy of any written appeal to me at the IDEM, Office of Water Quality, 100 North Senate Avenue, Indianapolis, Indiana 46204-2251.

The Office of Environmental Adjudication will provide parties who request review of this approval with notice of prehearing conferences, preliminary hearings, hearing, and stays or orders disposing of all proceedings. Nonparties may receive such notices without intervening and formally becoming parties in the proceeding by requesting copies of such notices from the Office of Environmental Adjudication.

If you have any questions regarding this letter, please contact Ms. Sheri L. Jordan of our office at (317) 232-8703 or you may contact her via email at [sjordan@idem.IN.gov](mailto:sjordan@idem.IN.gov).
